Your success is important to us.P.L. 361, § 3, the second paragraph of § 9610 has been amended by the 1973 Legislature to make such language "shall" and not "may." However, the amendment is not applicable to cases pending when it became effective on September 23, 1973. It was expressly held in Wilson v. Douds, supra, at p. 422, "§ \* \* that the amendment to § 9610 applies only to future acts of the Legislature." Under the 1973 amendments, a county home under the supervision of the Department of Health and Welfare shall be "a facility or institution which may receive juvenile offenders", N.J.S.A. \*364 2A:4-66.1. We note that our statute does not say "shall be" but "may be" and that it has also been amended in the same direction by the 1973 Legislature. L. 1973, c. 1

## What's New in the AutoCAD?

Incorporate directions from the PM in your drawings with Markup Assist. Designers can import signed signature blocks, stickers and stamps from paper, electronic files and more, and add them to their drawings. VAT Receipts: Designers can receive VAT receipts in AutoCAD. A new receipt type supports the VAT receipt standard in EU, the EU Common Sales Tax system. Customizable OCR-based Stickers: Designers can customize their receipt receipt sticker in the new OCR sticker wizard. Automatic Storage of One-Time References: Preventing a reference to be automatically inserted every time you insert a line can result in many redundant drawing objects. Now, insert a line and specify that one-time references are not saved automatically. AutoCAD will still insert references for any line numbers that are reused. Pen profile can be customized: Manipulating a pen profile is now even easier. New commands (Show Profile, Show Preferences, Set Profile) let you quickly see the current pen profile settings. You can also change a pen profile with a new button and popup menu. Pattern Block Properties: Pattern Blocks can now be assigned a size with the new Pattern Block Properties dialog. Simply assign a desired dimension to this new dialog and you're all set. Small-Entity List View Options: When a small-entity list is set to a view on the Design tab, a new View button on the Pattern Block Properties dialog lets you customize how AutoCAD displays the small-entity list. Add Item to the Toolbar: A new Add Item to the Toolbar dialog offers better control of the toolbars you have set. You can now add items to the toolbar by choosing a specific toolbar or by choosing a specific type of tool. Drop-Down Filters in the Toolbar Options: The Toolbar Options dialog now provides a much more complete list of available drop-down filters. Now you can quickly and easily apply a drop-down filter to the list. Rounded Corners: Rounded Corners are now enabled by default. You can still activate them with the new Rounded Corners command. Extents: Several new commands make it easier to work with the Extents and view options. Set Extents now lets you specify the number of objects for the new Extents command. You can set the Ext
