Nexus Mod Manager (NMM) is a free program that is a very handy mod manager for popular games. Download Hybrid Physx Mod 1.05ff Download Hybrid Physx Mod 1.05ff Hybrid Physx Mod 1.05ff. This is a mod for the game that replaces some of the sounds in Warhammer 40k Dawn of War, as well as some of the sounds that come from the ground. Hybrid Physx Mod 1.05ff for Warhammer 40k Dawn of War. The mod changes the sound of gunfire and bouncing projectiles, as well as the sound of armor and engines. It does not replace the sounds that come from the ground - they basically add new sounds. This mod is intended for single-player play only. This mod is not a standalone mod and does not require other mods. If you want to use other mods that change the sounds in single player, first disable the mod. If you want to use other files from this mod, turn the mod on first. And if you want to use the files from another mod that changes the sounds in the single game, turn the mod off first. If you want to play the "Sacred Lands" map with this single-player mod, turn it on first. If you want to play the "Everlasting Summer" map with this mod for single player, turn it off first The mod adds two new textures for girls with the glow effect and a new texture for boys with the glow effect. Also a new texture for the boy with glow effect. There are two versions in the archive for boys and girls. The version for girls is To install mod, copy files from archive to folder: World of Tanks\\res_mods\\1.0.1\\xxvm\\gui\\ The version for boys: To install the mod, copy the files from the archive into the folder World of Tanks\\res_mods\\0.9.0\\xxvm\\gui\\ Requirements: Game version 0.9.4 Installing mod: Unzip the archive and drop the folder scripts in the folder with the game World of Tanks. For all the files in the archive I promise, personally tested on 0.9.4 All mods work! To install the mod, you must download the archive and throw its contents into the folder of the game, agreeing to replace. If for some reason you have a mod does not work, then do the following: - Make sure that the mod is fully installed in the game folder (not in the folder with the scripts, and in the folder with the game). - Clean the game cache. - Install the mod and restart the game. Mod for World of Warships: - Customizable damage panel. - In the damage panel you can see the amount of damage caused and received. - Added an option to hide the damage panel. Installation: 1. If you already have a profile, delete your profile from the game. 2. Add the mod to the World_of_Warships folder 3. In the "Advanced Settings" select the "Configurable Damage Panel" item and enable the mod. 4. Restart the game. 5. Options tab -> "Customizable Damage Panel" -> "Add" -> "World of Warships Mod" > OK. 6. After restarting the game the desired mod will be automatically activated. Mod works on all ships in the game.
