Clearly it's not Barack Obama. The most surprising thing, though, is that it's titled "Obama's 12 Days in Hell." It's not exactly the first issue of Rolling Stone to refer to Barack Obama as a devil. In 2004, the magazine called him The Devil, and a year later it ran an unflattering cover depicting him as a male version of Lilith, the demonic sex fiend from biblical mythology. Of course, Rolling Stone's Michael Hastings wrote both articles, and he appears to have made a career of depicting the president as being a Satanist, although to be fair he does not always spell it out quite so clearly. It's too easy to trivialize the whole thing, though. Some of the Rastafarians on the cover of Rolling Stone seem to be a pretty straight-laced bunch, and every so often the magazine will publish an article that's illuminating. Tuesday's article about Obama's relationship with Rastafarianism seems like the sort of thing that shouldn't be taken lightly, even if it just reports events as they are. It begins by noting that Obama is a known fan of the pope, because he "glosses over the pontiff's anti-gay diatribes." It notes that Rastafarianism "often draws on religious texts and folklore from the sub-Saharan continent of Africa and that while Haile Selassie, the late emperor of Ethiopia, was an important figure in Rastafarianism, the bulk of the movement has since embraced a more modern outlook."
