LCD TV: LG 47LA691V , 47LA613V, 37LA620V CORRECT TV: LG 47LA691V . I do not know what to do, I have tried everything, but it does not work. Changed the firmware, even installed version 2.02. ... CORRECT TV: Lg 47la691v. Hello! LG 47LA691V TV. I can't find the file with the settings. When I turn it on, nothing changes. Although in other models when Please tell me how can I use the LG USB Remote to turn off and on SmartTV. I have a TV LG 47LA691V firmware STV-LC2622W. With the remote control and application lk.ugm.ru can not select the desired program. Thank you in advance. LG Smart Tv LG 55LK6500. Top. Subscribe to notifications about new replies. How do I configure my LG Smart TV to receive digital TV channels? To connect a digital. How to set up LG Smart TV on your TV (LG) or how to install a TV program on your LG Smart TV. Published. 2.01.5 N€.. Smart TV setup. Instructions for setting up your LG TV to receive and watch digital TV. First, you need to connect the antenna to the TV, then install the LG Smart TV program. Next, you need to configure smart TV depending on the type of antenna cable that was used when connecting. If a regular TV cable was used, you need to go into Smart TV and press the "network settings" button (usually located in the upper right corner where the LG logo is shown), then find "Wireless network" and enable "Enable WLAN" as shown in the screenshot below. If you used a cable from the Internet, you need to enter the Smart TV in the "Network Settings" and click "Add Network" (in different models of Smart TV it can be "On", "Change" or "Add" buttons). In the window that appears, you need to specify the network parameters, as shown in the screenshot below. In this case, you need to specify the IP address and specify DNS in the section "DNS". After that, click "Ok", and the TV will automatically find the network. How to configure Internet on LG Smart TV LG Smart TVs have two ways to connect to the Internet - directly and through a router. Let's look at each of them. How to connect LG Smart TV to the Internet through a router First, you need to configure the router. If it does not support Smart TV technology, you will need to connect it to the TV with a network cable. After that, connect the TV and the router with an Ethernet cable (a standard Ethernet cable with RJ-45 connector is included.
