The figure is more than the total British police workforce and a larger loss than every force in the UK. Depression among police is at an all-time high, according to a survey by charity The Line of Duty. Roughly a quarter of its experienced frontline officers said they were at risk of harming themselves or being harmed because of their work. The charity's Trust Barometer asked more than 2,400 officers how much of a problem their mental health was. It found that over half of front-line officers report their mental health is a problem, or "enormous" problem. Patrolling in the cold The line of duty deaths, already at an all-time high in 2019 with 26, have led to a "quiet" period for another round of officer suicide. While last year England's biggest force, the Metropolitan Police, saw

What's New in the Web Album Maker?

Lightweight and straightforward design. Drag and drop files. Watermark your images with text or add a high resolution logo. Create custom HTML code including links to your photos and album title. Generate HTML code you can integrate in other pages, websites or blogs. Create albums as many times as you want. Gallery Creator is a multi-platform application that allows you to create and manage hundreds of photos in a very short time. You can create a slideshow in various modes, as well as edit photos and add special effects to make them even more appealing. In case you wish to have a permanent image as a desktop background, it supports this as well. The interface is clean and simple with four main areas: Add a photo from your local device or Flickr, resize an existing image, as well as go through the slideshow. Since it is a Microsoft Windows only application, it supports up to 10.000 photos. It is rather easy to add photos through the application's file explorer, with the option of browsing through several folders as well. Multiple options are offered when it comes to image alignment, such as landscape, portrait, crop, as well as rotating around the center. Photo editing can be done in a very easy way, with all options available including cropping, rotating, shifting, lighting and saturation adjustments. The application offers multiple options to change the color of a selected region, as well as draw over specific photos. Rounding off the gallery mode and access to each photo's rating is a slideshow function. You can choose among a few effects such as tile, motion, mirror, fisheye, and more. A handy magnifier can be accessed from the navigation bar as well. Another interesting functionality is the ability to import Twitter feeds from some specific users. For instance, if a friend asks you for a particular photo, it will appear in the application without the need of opening another gallery site. Last, but not the least, Gallery Creator lets you export images in a very easy way, with output options available depending on the type of image, be it JPG or PNG. Gallery Creator Security: Gallery Creator is a safe application. It requires you to sign up to get access to all of its functions. However, it remains secure once you're logged in and there is no reason to worry about external access to your photos. Gallery Creator Pros: Clean and simple interface. Easy to use. Image editing. Image rating and slideshow. Import Twitter feeds. Easy
