A Muslim woman who lived as a free man for almost half a century was told she could never stay in Canada, simply because she wears a hijab. The woman's story was aired on a recent episode of CBC's investigative

documentary, B.C.'s Dirty Secret, where the British-Canadian citizen's identity and history was revealed. (B.C.'s Dirty Secret explores deception and identity fraud in the province.) In the show, she was referred to as a sex worker and the detective who arrested her said he's "been busting these things for 30 years." Sebastian Davis is an assistant director on B.C.'s Dirty Secret, an investigative documentary exploring deception and identity fraud in the province. In an interview with CBC News, Davis said the woman is facing deportation because she is

The program is very powerful tool for recovering Eudora lost passwords. Eudora Password Recovery includes the following modes: Automatic, Manual & Asterisks. With the Automatic recovery mode enabled you will receive all valid Eudora entries in a list of the found passwords. When in the Manual mode you are presented with a list of account folders. The recovered passwords are marked in green colour. To get the password you need to select one or more accounts in the list by clicking on them. With the Asterisks recovery mode you are prompted with a simple magnifier glass, which is used to highlight any Eudora passwords that have asterisks in the text and to reveal them when you click on the magnifier glass. Just like Eudora, Password Genie is a venerable e-mail client from the '90s. This one, however, is fast and packed with features. Is it worth a look for you? Let's find out! Password Genie is a very powerful and feature-rich e-mail client. The software's interface is rather simple, straightforward and easy-to-navigate. No complicated menus or a plethora of options to get lost in. Control panel The app comes with a pretty standard and straightforward interface, packed with options. The control panel, for instance, can be adjusted to your taste and mood. It consists of four tabs that offer a number of features that control how and what you would like to do, such as changes in the display of the various options. The tabs are Settings, Contacts, Download, and Chat. The display tab lets you change the background colors, choose how you want the messages displayed, whether you want to show the subject lines, and all the rest. The contacts tab is, again, pretty straightforward. You can view, edit, and delete contacts, as well as set up a new contact, and invite others to be your contacts. The download tab allows you to select the number of e-mails to be downloaded at a time. Your client can also check if the e-mails were successfully downloaded and makes sure they were stored accordingly. The chat tab offers a few options too. Chat messages can be sent from and received to other users. The app can also set up a chat room in which up to 100 users can take part. Besides that, it provides options to see when other users log in and out. Features and usability The software provides a lot of features to get the most out of
