i don't want to install both the MRT and DaRT and make it into a random user account by putting in a psw. i want it just to happen when the computer starts. is it possible? A: Uninstall both tools in turn. You can use the "Add or Remove Programs" control panel utility to remove the tools from the computer. The process of uninstalling both tools will create a standard Windows user account with only a password, and once the tool is uninstalled, you can boot directly into that account. Comparative study of fracture resistance and bond strength of root-end filling resins in root-end preparation. The objective of this study was to compare the fracture resistance and microtensile bond strengths (μ-TBS) of 4 different root-end filling resins. Initially, cone-beam computed tomography (CBCT) scans were obtained from 50 mandibular incisors in which the root canal space was exposed. After that, the root canals were prepared and the root-end cavities were filled with one of the tested root-end filling materials. The teeth were randomly distributed into 5 groups according to the filling materials as: Consep (RCM; 0.1 mL), Durelon (PV; 0.1 mL), Ultra-Etch (U; 1.1 mL), Ultra-Etch+ (U+; 1.1 mL), and a negative control group (N; no filling material). An additional 10 teeth served as a positive control group (control group: CG), which were not prepared but were only exposed. After 3 months, the fracture resistance was determined and μ-TBS of each group was measured. The data were statistically analyzed using the Kruskal-Wallis and Mann-Whitney U-tests, and a multiple linear regression was performed (α=.05). The Pearson correlation was used to evaluate the relationship between root-end fillings and μ-TBS. The lowest fracture resistance was found in Ultra-Etch and Ultra-Etch+ groups (P d0c515b9f4

Until I loaded the app into the incubator at Sparkline I had no idea that I had an older version than I should have had. I had been using it for weeks and didn't even know it was missing a feature I love. I reached out to Sparkline right away and was happy to receive the prompt response I was looking for. I couldn't believe that just two days later they shipped the updated app to me. I'm so impressed with the customer service here. Thank you! Yasir Qureshi Yasir Qureshi / VP, Consumer Business Development - FL 5/9/2016 Sparkline has been an invaluable resource in our customer service needs. From accounting to analytics and website creation they have been a great help. They provide an exceptional level of service and are always available to help with any issue you may have. Anthony Gonzalez Chief Information Officer 5/9/2016 I loved that my data could be prepared, organized, and exported in one easy interface. I also love the end-of-day summary of trends, graphs, and historical data. The app has been invaluable to me as I handle the finances for a small enterprise. 5/9/2016 I love the ease of use of Sparkline. It is intuitive, has a user-friendly interface, and a very powerful, flexible tool that can be used to monitor any type of website or business. I use the tool every single day as I monitor websites for my business. It's a huge time saver by letting me know which pages are not moving or are not converting customers. I use the tool with my clients and have found it to be the most effective tool to keep them on track. My customers tell me they like the fact that it tells them which pages are not converting. 5/9/2016 Our government agency has quite a bit of data collected from our credit cards. We use Sparkline for tracking our finances
