I'm a beginner programmer. I have been working on a site in HTML, CSS and JavaScript. The basic structure is fine. However, when I try to add a sound it will loop forever. I've tried adding a sound with an embed code with WAV/MP3 files. I've read that the code might not support sound on all browsers. What can I do to fix this issue? Simple.txt > ? URL of this image > Stack Overflow UI/CSS. Mysite/timeline.php A: Try to add this code after the opening alert("Referer");'; } else { } } ?> Q: Is it possible to use a post in the top of a table to count the number of rows in a table? I have two tables, one is called "songs" and the other is called "songs_likes". Both tables are linked together with a foreign key called "song_id". In the below code I am trying to get the total number of rows in "songs_likes" using a post in

Each year this beautiful city hosts a little piece of heaven, this year they are hosting the festival as well. Not to mention that it is the best time of the year to be in California, with an average temperature in the 60 degree Fahrenheit range at night. This year's 5th edition will also feature a movie director as the curator for one of the stages. And yes, it comes complete with it's own movie trailer, it's called... Watching the live footage from the festival will give you the feeling you are in the middle of the beautiful mountains of California. The stunning backdrop provides a breathtaking scenery to the music and meditative setting of a small Mexican village. One of the most creative acts at the festival will be the German producer Vincent Guigues. His productions are all over the map. He's been in the industry over 50 years and produced three big rock events together with Steve Howe. Now he's interested in the world of sound architecture, connecting people with nature. Harrison Ford once said, "You don
