Simple and smart “tasks” to customize your Windows desktop When it comes to

creating a comfortable and attractive desktop, many people struggle with a lot of different options. By combining a wide variety of tools, My Sidebar Torrent Download provides a quick and convenient way to access a range of functions and add a custom look to your desktop. Use this program to make your desktop seem more professional by placing your notes, daily tasks or pictures in your sidebar, then you can

easily access them with a single click. Added to that, the application makes it possible to use a new module, one of the key features of My Sidebar that makes your experience unique – it's called “Permanent”. It allows you to place an item on your desktop that will stay there even when your computer restarts. Desktop shortcuts

With the My Sidebar, you can automatically create some shortcuts to the desktop that

are handy not only for you, but also for other users who will have access to your computer. Not only that, you can create an entire group of shortcuts to all the applications you work with most frequently. To do this, you just need to connect the program to the apps you like the most via the right-click menu. In addition, you may access the Windows desktop icons to customize their layout. As a result, you will be able to access your most-

used files and folders in a matter of seconds. Do not underestimate the importance of adding custom desktop shortcuts. Although users find these functions annoying, adding them offers a quick access to all the work you frequently need to do. A small amount of personalization Thanks to the My Sidebar, you can apply a variety of functions and interface widgets to customize the look of your desktop. Choose between

three themes – Nature, City and Sea – and further tweak the interface by changing the color of the background and placing icons there. The program offers you a choice of twelve different background images, divided into three categories: Nature, City and Sea. You can either import your own photos from the image folder or choose a random photo from your pictures library. When it comes to icons, you may pick among eight

different ones: clock, calendar, note pad, reminder, task, list, RSS, and folder. The most important setting is the size of the icons. If you change the size of a custom icon, it will make the functions it's linked to appear larger and, thus, more convenient. Apart from b7e8fdf5c8

After Windows Vista, many new elements appeared on the user interface of the operating system. Such elements as Sidebar, the tool that lets you place a brief image on your desktop, can help you effectively reduce the time required for opening your favorite programs. My Sidebar is a freeware utility whose aim is to simplify the task of placing a sidebar on your desktop that offers

quick access to certain tasks. The program allows you to place such icons as your personal calendar, notes, or e-mail client on the area that constitutes your desktop sidebar. The interface is intuitive and allows you to set up configuration settings without any help. It is important to mention that the utility does not store the data in the Windows registry so that you can easily deactivate it using the cut-and-paste method. Thus, you

can copy the application on a pen drive and take it with you in a very easy way. The program is portable and has the ability to run in the absence of administrative rights. Besides, you may choose between three themes, namely Bamboo, Waterfall, and Acadia Mountain. The set of features is quite basic but can easily deal with projects of even the most demanding users. Key Features: - Creates a user-defined icon on your

desktop. - Chooses between three themes (Bamboo, Waterfall, and Acadia Mountain) for choosing the color of the background and an image for placing in the main window. - Contains a tool to access your calendar which allows you to navigate through the months and years of the year. You may jump to the next or previous month/year. - Allows you to access your personal notes (e-mails, SMS, and so on). You may copy the text from

the clipboard and paste it into a text box directly. - Uses a simple interface in which you can easily adjust the settings, such as the size of the sidebar, its proximity to the edge of the screen, and so on. - Can be installed on USB pendrive and moved with you to a different machine. What's New in Version 5.9: - Improved the performance of the application - The possibility to delete the program - Improved the appearance of

the application Mozilla

Pondok Cina Pondok Cina (;) is a township in northeast Johor Bahru, Johor, Malaysia. It was

developed by MRC Bhd. The origin of the name is the Chinese pronunciation of the Malay word kampung which means village or hamlet.

There are numerous kampungs in the area.

Another origin is the name of Pak Chia Teck, who was a famous rebel leader from this village. Gallery
