**of the Wrath The universe of Ace Combat is robust and detailed in a way that allows you to tailor your play style without the need of restricting yourself to certain aircrafts. It also features several customization options and plane parts you can buy. If you are a sim gamer that is not afraid of a lot of things, you might just find the Ace Combat series interesting if you like fast paced action focused on producing high DPM. Arc Rise Fantasia Arc Rise Fantasia is a free to play action game where you take the role of a young girl raised by goblins. However, the goblins decided to migrate and start a new life on the surface of the planet after they slaughtered their camps. Needing a way of getting back on her feet, Goro sets on foot on a journey towards the surface to find help. The journey takes almost a decade for Goro to complete, but she decides to risk everything by leaving the safety of goblin lands in search for help. The story in ARF is very simple and easy to follow. However, if you want to get the most of the experience, you will want to pay some attention to the details. You will find hidden meanings in one of the backgrounds and dialogues that gives you a new layer of meaning to the actions you take. The characters in the game have bits of in-game thoughts and stories to tell and choices to make for you to choose the ending of the game. Plus, the game has several bosses and endgame content that gives a very interesting story that is almost at a different level to the rest of the game. Perhaps the biggest appeal of the game is the gameplay itself. You play as a young child raised by the goblins and learn how to handle a sword as you struggle to survive in a world where you are not fit for any other purpose than to be an enforcer. From fighting rogue goblins and large monsters to exploring and grinding, ARF has plenty to offer in this genre of the game. As a fresh take on the fantasy RPG genres, it plays well and gives you a lot of things to do. Your ship, the Bullet Garden, has been taken over by the Space Mutants, who intend to change the world into a place of the Space Mutants living and ruling. How You Can Play: You are the fearless hero of the Earth. You are called the Bullet Garden. Your duty is to rescue the survivors who are lost in the mutinous environment. You can move the ship freely around the area, leaving the game screen (in top-down perspective). When you walk, there are a few things that can happen: - a spaceship lands - a mutant attacks you - you land on a bad environment where you need to examine the place - you will find an item that complements the previous three events (Composition of the Weapon Page) A: Normally the way to solve it is to see if the image includes what you want or not, by treating it as a binary question, using the exact match query: `MATCH (n:node{nodeId:{id} }) WHERE n.title.contains( "Black Hole War" ) AND n.image.match({ path:"", top:"150", left:"150", width:"200", height:"200" }) RETURN n,n.image AS image` This will return all nodes that contain the string "Black Hole War" AND have a JPEG with the given dimensions. Poll: Are you a poly person? - cwan ===== jfb Some quick responses to what I'd call the sign-up form snark (don't you love how a poll asks for only 2 of the 3 answers used?): 1) Yes, of course, I do two-sided dating. This is not a poll to determine if you do it, it's a poll to determine if you do it with more than one partner. 2) No, I can't be bothered with the
