This product contains various "Add ons" to help level your company's Fantasy Grounds gaming experience. As a standalone product, it is aimed at the 5E Playable Rules System. Pick up another fantasy game for a few dollars! This one has the added attraction of allowing young heroes to live out their childhood fantasies of becoming great heroes. Just make sure the parents are around when they play to be sure their memories don't get tainted. Features Playable Rules System: An intuitive system where step by step player skill and minimal character knowledge is required to make skill checks. Campaign Background: The characters live in an abandoned monastery in a remote mountain region. So far no other magical folks have made it this far into the mountains. This should force the PCs to seek higher ground. Party Options: There are three story-driven party set-ups to choose from, where the player can freely create a party of standard fantasy characters. Playable Content: The story content is in the form of written text that is easily stored, printed, and designed. The various Fantasy Grounds files can be easily converted into a number of different formats, such as print, video, or a number of other mediums. Private Game Hosting: All you need is a company license and a personal subscription to Fantasy Grounds. This product includes hosting tools as well as information to help players create their own campaigns. Misc Thanks This item was a lot of work and requires almost daily updating for the latest version of Fantasy Grounds to work with. This is due to a number of changes I've made to the product; from changing the file structure, to adding new content and features. I thank you for your time and your patience and look forward to your continued business. Supported Versions This product was designed for Fantasy Grounds version 3.2.2 and higher. These are the most current Fantasy Grounds versions; as well as any of the current and future versions of Fantasy Grounds. Unofficial Patch Notes An update to the 5E Ruleset **\*\*FIXES\*\*** - Knight Navigator no longer exists. Replaced it with a new spell called Knight Errant. - Fixed CRB+ to apply to structures. They are now a cost of 5 Gold/level (including half cost if called for). Credit \*Special thanks to Damian Blackwell, who added the new 5E ruleset and also contributed both the old and the new settings for Ruleset Updates. \*Thank you

Top down view and third person view of Paper Mario World! The third person mode looks a bit wierd, but it's still really fun to explore. When I first played Mario World, I was really happy with the original Paper Mario. Then the Mario Kart series came out. My heart sank because I knew that that game wouldn't be as good. But it was. It's Paper Mario and Paper Mario World for the Gameboy. Not a port or remake! Just a completely different game. Enjoy! Starring Micheal "Unkyu-highstar" Shepherd Subscribe for more videos! **AUBURN, Alabama -- Auburn will build a new football operations building at Jordan-Hare Stadium, Auburn athletic director Jay Jacobs said Monday at SEC Media Days. Jacobs said work will begin on the new building, which will include a strength and conditioning area, offices and player lounges, within the next few months and construction is scheduled to be completed by the start of the 2017 season. Auburn's new football operations building will be built near the locker room of the building that holds the football coaches offices. The new space will have similar amenities to what Tennessee football has in Neyland Stadium. The new building will be connected to the east side of the stadium and the coaches offices will remain in the same building. The old building will be torn down and the area will be repurposed to include a smaller weight room and an area that will provide space for the baseball team, the football team, the softball team and the other sports to use. The five existing tennis courts will be relocated to the football operations building. Jacobs said he expects an initial cost**

for the building to be about \$20 million. The university will not be covering the cost of building the new building. The work is expected to be completed by the start of the 2017 season. Auburn's football team has had success in the new strength and conditioning areas at both Ben Hill Griffin Stadium and Jordan-Hare Stadium since the program moved into the new training facility at the start of the 2010 season. Auburn last week completed its most successful regular season in school history with a 9-3 record and the
