Elden Ring Features Key:

Strategy game action RPG encompassing The Legend of Heroes / Chrono Trigger's open world system. About 10 hours of single-player.
Take control of a Tarnished, the unit that can transform into both melee and ranged weapons, undergoes evolution, and has acquired unprecedented strength. With a variety of combat skills, you can use critical hit attacks and evade. The variety of weapons and skills are essential for defeating the actions of the enemy groups. Enemies on the field of battle are large, but if you plan ahead and make

use of your ability, a combat scenario can be unlocked.
Unlocking the story. A tale that leads the Elden Lord to the Crossroads, an event that takes place at the tale's ending.
The 1st class-based combat system, Action RPG, focused on the game itself. It is tightly integrated with the currently implemented combat style, and the difference in enemy attacks such as that between magic and melee attacks, a cast magic that is powerful and usable in the formation of a group, is also clearly shown. Multiple actions are possible depending on the distance and geometry of the battle situation, and this time it will also be important to become careful with enemy attacks.

The battlefield of action, horror, comedy, and romance stories, the action of refined strategy, and also a new RPG reached a hero on a journey in the world of war. • The veritable action and romance RPG that has the story "The Legend of Heroes"; that has a world that is open by class elements; and that has numerous gameplay.
