This time you are transported to another dungeon with the same map as in D1, and the same rules.

There are also new puzzle elements and a wicked new rogue! If you already played Devious Dungeon then you can compete in this second edition of the game! If not, try it for the first time.

Play Devious Dungeon 2 online GuardsThe Guards are adversaries for the player (the dungeon master). You must be in the guards' line of sight and close to them in order to become hostile or attack them. The guards do not think about you, they just worry about their ongoing tasks. Thus, their personal survival is of no concern to them.A Guard can do two things: They can attack you (this takes the form of an action) and they can work on a task (this takes the form of a maneuver). If a guard performs a task, they will announce it (or the task being performed is specified in the required section of their icon). You can't attack a guard if your health is full. If you attack a guard you become hostile. When hostile you can continue attacking them, but you won't be able to perform any actions.

If you want to attack you must first take a health potion. You can attack guards up to three times.

Finally, you can attack them with magic! You can also become a guard during the game. You play this role like a normal player, except that your enemies (the goblins) are the guards. You can pick a target, attack it, and begin working as a guard. You can move like a guard and you can attack like a guard. You can only perform one type of action in this role. If you attack and work simultaneously, you can do only one of each. The Dungeon MasterThe Dungeon Master (or D.M.) is the player's indirect adversary. The D.M. gives the tokens that give away the guards' positions on the map. This helps them be placed so that the goblins (the player's indirect adversaries) can find them. This is called the "being found". The D.M. also deals and resolves the remaining outcomes, creates the next random dungeon, and awards the player. The random dungeon is created by the D.M. by drawing a new triangle on the board. The D.M. then draws two new segments out of the new triangle. If the dice roll is 1, 1, 2 or 2, then one of those segments is

Legendary new Psytrance titans Paradise Killer have returned with brand new music and a message of love, unity, friendship, and hope. Paradise Killer is the brainchild of Thomas Temple, who has helmed the group since its inception. Thomas offers what he calls "garage meets progressive dance" music, and has collaborated with various artists and musicians in the genre over the years. Thomas is joined by the likes of Banks Johnson, Janette Beckman and Guy Chadwick, plus drummer John Hirsch and bassist Alistair Roll on this release. The Paradise Killer album was recorded in the studio in Miami over a six-month period, with Thomas capturing the sessions on the decks. Special guests included the great Fiona Lynch on vocals and saxophone, and Fabian Hernandez on guitar. "The album is meant to be a multi-dimensional experience," said Thomas. "When you listen to it, imagine that you're there. Be a fan."

Highlights include “All I Want”, “One Step Away From Paradise” and “Lift Off”, all of which feature the vocals of Fiona Lynch. Each track is accompanied by a specific message, some uplifting, some more provocative. The album finishes with Thomas taking the listener on a journey that’s as musical and imaginative as the opening track. For a band who're considered to be at the forefront of the current Psytrance scene, Paradise Killer have, quite simply, reinvented themselves. Thomas says, “The public never gets to see what we’re really like. We’re just happy to do our own thing, make a living, and continue to evolve.” Deep, resonating and spiralling; the tracks on Paradise Killer take the listener on a journey. Their music is dripping with emotion, and it’s a pleasure to listen to. Fans of the genre should find this album right up their alley, while newcomers will find a new and varied side of the genre that comes straight from the heart.
