January 3, 2022 - I'm trying to run the latest version of SheepShaver on PPC Linux. I used the Mac OS 8.6 install CD and it booted up and s as soon as I opened . /configure. I ran make which gave some error messages and I get the following message: ls -l /usr/bin/sheepshaver /usr/bin/sheepshaver Jan 3, 2022 - This was the end of my attempt to get SheepShaver up to Jan 3. I didn't get an error, but a message saying that I should have downloaded and installed the latest version (which was just released). I have done this and I am getting the same error. Here are my main things using I'm using PPC Linux.
