VectorWorks 12.5.1 Full Installer.dmg

January 19, 2007 " Well,
Nemetschek has acknowledged a
problem with the 12.5.1 update for
Macs. In the meantime, they advised
to reinstall 12.5. 1 to avoid the
problem with updates. However, this
does not solve the problem due to
the fact that updates for other Mac
systems are incompatible. I've been
trying to install Mac OS 12.5.1 on my
machine for a week now and can't. I
can't reinstall 12.5 either because
it's no longer supported. I can't even
install 12.5.1 on another Mac

because the updates for it are not compatible with 12.5.1 and it crashes. dd2bc28256
