Simple and safe macro creator - paste and

forget! KEYMACRO is the only software in its class to actually put a stop to mouse clicks and clipboard activity, so you can focus on your work with no distractions. KEYMACRO's features include -... X-WINDOW Downloader 3.6 Quick and safe downloader with full history (up to 32 threads) X-WINDOW Downloader is a simple and efficient download tool. It starts automatically and sets the maximum of threads to the number of cores you have. X-WINDOW Downloader allows you to save the downloaded files in any directory you want, but it is recommended to choose a directory where the average size of files is not higher than 100MB. The main advantages of X-WINDOW Downloader are: * start automatically and set the maximum of threads to the number of cores you have * set working directory and resume all files after quitting * save all files on local computer * add file extension,... 7-Zip 10.0.0.64 7-Zip is a

file archiver with high compression ratio and high speed. It supports all kinds of files and all editions of Windows. 7-Zip is very easy to use. Just 7-Zip, just extract. 7-Zip supports many archive formats and settings. Full decompression speed 7-Zip is a kind of decompression software, but also contains file compression. With the high speed of decompression, 7-Zip can accelerate the opening speed of archives and save network bandwidth. Advanced multi-thread architecture 7-Zip is built on multi-threading architecture, which can use multiple cores to improve the speed. 7-Zip has a built-in multi-threading technology, which is designed to improve the speed of decompression, so that you can easily handle files from multiple threads. Speed of high compression 7-Zip has a very high compression rate, about 70% of which is lower. The multi-threading technology can achieve a compression speed

of several times faster. The speed of the high compression is very fast, to ensure the fast opening speed. Many archive formats 7-Zip is a powerful archive file format supported. 7-Zip can support the original file format 7-Zip, LZH, Gzip, Bzip2, TAR, CAB, RAR,..., with features such as the ability to create and manage folders. ...
