I received a few JPEG images for myself and I am trying to edit them and convert them to TIFF. I have not had any problems with GIA2. My images look great. I tried to look for some problems with GIA2 but was unable to find anything. All of the images look great and the PIA engine is really easy to use and easy to understand. I have one question I need to do a little conversion and such. How do I change f988f36e3a
