How do I get the file name of the.xap file when I extract it from the Android resource folder? I have done this String fileName = (String)getResources().getResource("").getFileName(); but this does not work. In fact the path is 'android/data/mypackage/files/1_4.xap' and getResource() returns 'android/data/mypackage/files/1_4.xml' Thank you! EDIT: Just to be clear, I am trying to get the name of a.xap file in the resource folder. I have read the question How to get the file name of a file stored in the assets folder and thought it would be possible to do something similar. A: See: How to get the file name of a.jar file, from android source code In your specific case, try something like this: InputStream input = context.getResources().openRawResource(1); ByteArrayOutputStream buffer = new ByteArrayOutputStream(); byte[] b = new byte[8192]; int size; while ((size = input.read(b))!= -1) { buffer.write(b, 0, size); } String str = new String(buffer.toByteArray()); Once you have the input stream then you can read it into a string (String). Jurgen Klopp has confirmed that Joe Gomez is likely to return to the Liverpool team next week. The Germany international left Anfield with a hand injury during the cup final defeat to Real Madrid and missed the 1-0 victory over Stoke on Tuesday night. But he is expected to be 79a2804d6b
