Ciel Devis Facture 2013 is a commercial software that requires a license to use. However, some websites claim to offer a cracked version of the software that can be downloaded for free via torrent. This is illegal and risky, as you may expose your computer to viruses, malware or legal issues. Moreover, you may not benefit from the updates, support and security features of the official software. Therefore, we do not recommend downloading Ciel Devis Facture 2013 torrent from any source. Instead, you should purchase the software from the official website of Ciel or from a trusted reseller. You can also try the software for free for 30 days before buying it. This way, you can enjoy all the features and benefits of Ciel Devis Facture 2013 without compromising your safety or legality. Ciel Devis Facture 2013 is a software that has many features to help you manage your business efficiently. Some of the features are:

- Automatic calculation of VAT, discounts and margins.

- Creation of recurring invoices and payment schedules.
- Conversion of quotes into invoices or orders with one click.

Ciel Devis Facture 2013 is a software that is compatible with Windows XP, Vista and 7. It requires a minimum of 512 MB of RAM and 300 MB of disk space. It also supports network installation for multiple users. You can download a free trial version of the software from the official website of Ciel or from Clubic. The trial version is valid for 30 days and allows you to create up to 100 documents. Ciel Devis Facture 2013 is a software that has received positive reviews from users and experts. It is praised for its ease of use, its customization options and its reliability. It is also recognized as a reference in the field of billing software for small businesses. However, some users have reported some drawbacks, such as the lack of online access, the high price and the limited customer support. Ciel Devis Facture 2013 is a software that has many competitors in the market of billing software. Some of the alternatives to Ciel Devis Facture 2013 are:

- Erplain: a cloud-based software that simplifies B2B sales and inventory management for small businesses. It offers features such as online payment, multi-currency, multi-warehouse, barcode scanning and integration with Shopify and QuickBooks.
- FreshBooks: a popular online software that helps small businesses and freelancers to manage their accounting and invoicing. It offers features such as time tracking, expense tracking, project management, recurring invoices and reports.
- ClicFacture: an online software that allows you to create and send professional invoices and quotes in a few clicks. It offers features such as automatic reminders, online payment, customer portal and integration with Mailchimp and Google Drive.

Ciel Devis Facture 2013 is a software that may suit your needs if you are looking for a reliable and easy-to-use software that can be installed on your Windows computer or network. However, if you are looking for a more modern and flexible software that can be accessed from anywhere and offers more features and integrations, you may want to consider some of the alternatives to Ciel Devis Facture 2013.
