Download (41).mp4

@kbaker765 You can not choose the format you want to download a video in Stream. It downloads the format you or the tool has uploaded. You have to do the conversion on your computer with a tool to mp4! Currently, I am having all recorded teams call/meeting video files be dumped into a OneDrive account where I go in and pull them down. I would like to know if there is a way for me to download these videos directly from Teams without having to setup a OneDrive account to scrape these files from. The naming convention follows the **...title...-yyyymmdd_HHmmss-.....mp4**, so in your example it is the timestamp in 24hr format. See the screenshot with meeting recording creation time and recording file name.

MP4 Recordings Default in Webex Meetings 40.10

In the upcoming October (40.10) update, all-new recordings in Webex Meetings will be stored in MP4 format, either in the cloud or locally as selected at the site or host level, with a video-centric experience. By standardizing the recording format, you'll have a wider choice of playback tools, better security, and a more effortless collaboration experience even after your meetings. Existing ARF and WRF recordings can still be downloaded or played at the Webex site. For more information regarding video-centric recording, go to Video-Centric Network-Based MP4 Recordings in Webex Meetings and Webex Events.

Note:

If your company has multiple Webex sites, you can try entering the other site addresses into the URL field.

Cause:

You may receive a prompt to authenticate in the following dialog window when trying to convert Network-Based Recordings to .MP4 format:

Converting .ARF files to .MP4 format requires a special plug-in to be installed to the Network-Recording Player. This plug-in is controlled due to licensing requirements, and requires users to authenticate to their Webex host account when downloading the file.

Solution:

Sites with Single Sign On (SSO) enabled: Download the best quality Mature.nl presents Ivonna (41).mp4 from K2S (182.62 MB)Download the best quality Mature.nl presents Ivonna (41).mp4 from K2S (182.62 MB)Download the best quality Mature.nl presents Ivonna (41).mp4 from K2S (182.62 MB)Download the best quality Mature.nl presents Ivonna (41).mp4 from K2S (182.62 MB)Download the best quality Mature.nl presents Ivonna (41).mp4 from K2S (182.62 MB)Download the best quality Mature.nl presents Ivonna (41).mp4 from K2S (182.62 MB)Download the best quality Mature.nl presents Ivonna (41).mp4 from K2S (182.62 MB)
