

Hand Of Fate Skachat Torrent Rus

Another Code was the first game to illustrate the potential of the Nintendo DS as a pre-eminent adventure platform, and remains one of the best to this day. This 2005 release by Cing stands out as a true gem not only for its gentle, melancholy story and characters, but also for the ingenious ways the developer utilized the handheld device's hardware. Fourteen-year old Ashley begins the game believing her parents died when she was a young child, but a mysterious letter turns her world upside down when it reveals that her father is still alive on the remote, ominously-named Blood Edward Island. Upon arriving at the island herself, Ashley ventures out on her own to find him. Soon she runs into the ghost of a boy named D, who seems just as lost as she. Together this unlikely pair explores the island and the massive Edward Mansion to discover the fate of Ashley's family and learn more about D's history.
