

[S3E12] Sic Transit Vir

Not much to say about this one ... it's a bit over the top, Londo's fighting epic battle with bugs, Sheridan's kitchen mess, Vir seeking out Susan for sexual advisory, and Lydisty makes Lady Macbeth look like a balanced person... but it was about time for a bit of silliness, I suppose.

JMS on the title: "Yes, it's sort of a double pun in that respect...thus passes the man (=sic transit Vir), which can have many meanings, also entering manhood, or dying, or going away, or the more Vir transitioning, or going...lots of variations."
