Stitch Era Universal: A Free and Powerful Embroidery Design Software

If you are looking for a software product that can help you create amazing embroidery designs, you may want to check out Stitch Era Universal. This is a free software product that offers a huge set of features such as stitch editing, lettering, auto-digitizing, manual digitizing and interactive digitizing over both raster and vector graphics. You can also merge and personalize existing designs, or create new ones from scratch. Stitch Era Universal is part of the Design ERA software suite for the apparel decoration industry, which also includes products for hot fix rhinestone and sequin design. Stitch Era Universal is compatible with most embroidery machine brands and models, and can output designs in various formats. You can also convert designs from one format to another with ease. Stitch Era Universal has a modern and user-friendly interface that follows the Microsoft Office style with application button and context ribbon bars. The tools are well organized and easy to access, and you can customize your workspace according to your preferences. You can also access online tutorials, videos and support from the Stitch Era website. One of the advantages of Stitch Era Universal is that it is free for the end user. You just need to register online and download the software from the website. However, there are some limitations that you should be aware of. For example, the maximum stitch number per design is 40,000 stitches, the computer must be connected to the internet while using it, the software window includes advertising, and it has less system components compared to Stitch Era Liberty, which is the highest software level in the Stitch Era family. Stitch Era Liberty offers more features and options for professional embroidery design creation, such as advanced object editing, system stitch styles, expanded to condensed feature, stitch effects, true type font compatibility, monogramming and more. Stitch Era Liberty is a paid product that costs \$999 for established embroidery decorators or \$1,599 for start-up embroidery decorators. However, you can also install Stitch Era Universal on other computers and use it as a complementary tool, as the design files are fully compatible between both products. If you want to learn more about Stitch Era Universal or Stitch Era Liberty, you can visit their official website at <http://stitchera.com/>. There you can find more information about the products features, benefits, system requirements, pricing and more. You can also download Stitch Era Universal for free or request a demo version of Stitch Era Liberty. Whether you are a beginner or an expert in embroidery design, Stitch Era has a product that suits your needs and budget. Stitch Era Universal is not only a software product, but also a community of embroidery enthusiasts who share their designs, tips and feedback online. You can join the Stitch Era Universal Facebook group and connect with other users from all over the world.
