How to Download and Install Vision Plus 1020A Driver for Windows 7

Vision Plus 1020A is a digital satellite TV receiver card that allows you to watch free-to-air channels on your PC. However, if you have upgraded your operating system to Windows 7, you may encounter some problems with the driver compatibility. In this article, we will show you how to download and install the latest Vision Plus 1020A driver for Windows 7.

Step 1: Download the Vision Plus 1020A Driver

The official website of Vision Plus does not provide any driver for Windows 7, so you will need to find a third-party source. One of the options is to use the Twinhan BDA driver, which is compatible with Vision Plus 1020A and supports both 32-bit and 64-bit versions of Windows 7. You can download the Twinhan BDA driver from this link:

<https://www.w7forums.com/threads/visionplus-1020a-drivers.2296/>. Alternatively, you can search for other sources online using the keyword "vision plus 1020a driver download".

Step 2: Install the Vision Plus 1020A Driver

After downloading the driver file, unzip it and run the setup.exe file. Follow the instructions on the screen to install the driver. You may need to restart your PC after the installation is complete. Once the driver is installed, you should be able to use your Vision Plus 1020A card with any compatible software, such as DVB Dream, Prog DVB, or Windows Media Center.

Step 3: Troubleshoot the Vision Plus 1020A Driver

If you encounter any issues with the Vision Plus 1020A driver, such as scanning channels but not finding them, or not being able to save them to the list, you can try some of these tips:

- Make sure your satellite dish and LNB are properly aligned and connected.
- Check your signal strength and quality using the software's settings.
- Update your software to the latest version.
- Run the software in compatibility mode for Windows XP Service Pack 2 and as administrator.
- Contact the software's support team or visit their forums for more help.

We hope this article has helped you to download and install the Vision Plus 1020A driver for Windows 7. If you have any questions or feedback, please leave a comment below.

What is Vision Plus 1020A?

Vision Plus 1020A is a PCI card that allows you to receive digital satellite TV signals on your PC. It supports DVB-S standard and MPEG-2 decoding. It has a single tuner and a CI slot for inserting a CAM module and a smart card. With Vision Plus 1020A, you can watch hundreds of free-to-air channels from different satellites, such as Hotbird, Astra, Eutelsat, and more. You can also record your favorite programs and save them to your hard drive.

What are the benefits of Vision Plus 1020A?

Vision Plus 1020A has many benefits for satellite TV enthusiasts. Some of them are:

- It is easy to install and use. You just need to plug the card into a PCI slot on your PC, connect the cable from your dish to the card, and install the driver and software.
- It is compatible with various software applications that allow you to watch, record, edit, and stream satellite TV channels on your PC.
- It supports high-definition video and Dolby digital audio.
- It has a CI slot that enables you to access encrypted channels with a CAM module and a smart card.
- It is affordable and cost-effective. You don't need to pay any monthly fees or subscriptions to watch free-to-air channels.

How to choose the best software for Vision Plus 1020A?

There are many software applications that can work with Vision Plus 1020A, but not all of them have the same features and performance. To choose the best software for your needs, you should consider some factors, such as:

- The compatibility with your operating system and driver.
- The user interface and ease of use.
- The number and variety of channels and satellites supported.
- The recording and playback functions and quality.
- The editing and streaming capabilities.
- The customer service and technical support.

Some of the most popular software for Vision Plus 1020A are DVB Dream, Prog DVB, Windows Media Center, Twinhan DTV, and DVB-Data. You can compare their features and reviews online and choose the one that suits you best.
